

LINCOLN MARINE

EZSTEP

By Lincoln Marine

US Patent 12,054,989 B1

EZ Step by Lincoln Marine uses a ratchet lock system to prevent ladder from falling in the wind or raised by waves, no pin to align or pull when placing in upright position. The steps are ergonomically designed to ease the process of entering and exiting the water, and removeable for easy storing. Place on your dock or pool for smooth access in and out of the water!

Features & Benefits

Only ladder in the industry where ladder system can be removed from bracket for ease of storage.

Aluminum is powder painted with rubber cushion step pads to secure footing.

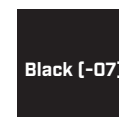

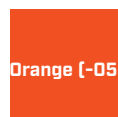

Patented manual ratchet lock system to lift in & out of water.
